QLxchange™ introduces OneX™

Why the name OneX? We think you will figure that out yourself. We offer an amazing international Gold and Silver Program with multiple Profit Centers, OneX being our first. Later on you can take time to learn all about QLxchange. For now, we suggest you focus on OneX.

We realize for someone to be successful in today's opportunity programs, the company must provide an easy, nearly fail-proof way for its members to earn enough income to pay for it and achieve their goals. We have done exactly that by creating this super easy program. These goals have not only been accomplished, but OneX can produce a fabulous income all by itself. So watch out, because the fuse is lit and it is about to explode!

The cost of admission into QLxchange is FREE, however, to be placed in the program and earn an income you need to pay a one time out-of-pocket fee of \$5 (or 1 x \$5 = ?). By the way, that is the clue for the reason behind our name. One (1) times (X) \$5. That's right, one times five dollars, we did place the decimal point correctly. It would certainly be worth a price ten times or even 100 times more.

Here is how this simple program works:

1. It is FREE to join QLxchange, the parent program, which can provide you with enough income that you may never need to come out-of-pocket! OneX is the marketing arm for QLxchange and as an additional Profit Center within QLxchange, functions as a fast start bonus.
2. Once you login to your back office you can pay \$5 to upgrade to Stage One - Tier 1. At that point, you are placed in the first available position in your sponsor's 4 x 4 company forced matrix and sit at the top of your own matrix.
3. To insure that you do not need to come out-of-pocket for QLxchange, 100% of the income from OneX is paid back to the field.
4. The attraction of OneX will automatically build your QLxchange business.
5. Buy just one-time out-of-pocket upgrade fee of \$5, which buys a training lesson.
